VIRGINIA ROTARIANS HOST RUSSIAN ENGINEERS

"Coming here is like coming to another planet, "Diana Scherbina, general director of the firm Prim Telefon, told the Washinton Post. "Our lifestyles and environment are very different."

Firms like, America Online, Oracle, Siemens and Verizon- as well as federal and county governments, were enlisted to provide free training related to technology, management, customer service, marketing and planning issues.

Previously unacquainted with Rotary, the Russians were impressed by the role clubs play in their communities and internationally.

A number of US Rotary Clubs have organized and facilitated vocational training for Russian professionals through Productivity Enhancement Programs. In other professions, Russian doctors have participated in courses involving new medical procedures and techniques.

We will have Steve Bares as our speaker today. What FedEx did for Memphis in the 20th century, biotechnology will do in the 21st says Steve Bares, the new president and executive director of the Memphis Biotech Foundation.

LAST WEEK'S PROGRAM

Michael Chang describes Opera as an entertaining and theatrical art form which usually appeals to a younger audience. Michael is in his tenth season as the General/Artistic Director of Opera Memphis. Opera Memphis has run in the black every year since 1995. The Opera is currently in the midst of a \$7.2 million dollar capital drive to build a headquarters at Humphrey's Boulevard and Kirby Road. In the next 3 months, Michael will conduct Verdi's La Traviata in Honolulu and The Tales of Hoffman here in Memphis. In March he will oversee a workshop of his new opera about the Lewis and Clark Expedition which was commissioned by the University of Missouri in honor of the Lewis and Clark bicentennial. He entertained us with 2 Arias in English and in honor of an old Rotary tradition, requested that we join him in singing America the Beautiful. He was a lot of fun!
